

MDRA Chart of 2021 Introduced Legislation:

February 5, 2021

The following bills of interest with potential impacts on the operation of deputy registrars have been introduced at the Minnesota Legislature and being monitored by MDRA. Most bills begin with identical but separate introductions in the House and Senate initially. These “companion” bills are indicated within the chart below with an asterisk. As each body considers their legislation, they may modify or “amend” a bill’s language in the process, and not always reflective of the other body’s actions.

The introduced legislation below identifies it by “file number” (HF for House File and SF for Senate File) and chief author’s last name. A brief description of its subject matter follows it. Bills of particular interest are highlighted in yellow. Each future update to this master list will be differentiated in blue.

Current language of any bill in its entirety can be viewed online by visiting the House or Senate webpage at (www.house.mn or www.senate.mn) and clicking the “bill search and status” link. Please contact MDRA if you have any questions with these listed bills or need guidance navigating the legislative webpages. Thank you for your review and ongoing participation with our MDRA legislative advocacy!

2021 House Bills introduced:

| <u>Bill File #</u> | <u>Author</u> | <u>Subject Matter</u> |
